ZANJÓN DE LA AGUADA - THE GREEN ATRIUM AS THE MATRIX OF COMPOSITION OF THE GREEN BISECTOR OF SANTIAGO

STRETCH 9

ZANJÓN DE LA AGUADA HISTORY

Elimination of the creek in the City.
The old railroad has been reformulated and converted as the Metro Line 5 corridor.
Creek as a boundary in the south end of the area.

The role of Cartilage was founded in the south of Mapocho River, as a valley surrounded by mountains and rivers.
Creek as its boundary is due to this valley, between the Mapocho River and the Andes Mountains Range.
